## Overview

The result of a private initiative by Thomas J A Lehman MD (Chief, Division of Pediatric Rheumatology, The Hospital for Special Surgery), this website appears to contain some of the most complete collections of information related to Pediatric Rheumatology. Furthermore, several academic centers contain links to this page in their own pediatric rheumatology pages.

## Content

This site contains such useful links as <http://www.goldscout.com/books.html> and <http://www.goldscout.com/page1.html>, supplying access to relevant information in the areas of scleroderma, childhood arthritis, dermatomyositis, juvenile rheumatoid arthritis (JRA), Kawasaki disease, pediatric rheumatology, polyarteritis nodosa, systemic lupus erythematosus (SLE), and vasculitis.
